THE GREATEST MINDS IN SUSTAINABLE LIVING ALL GOOGONIANS FOR A DAY

Welcome to Sustainable House Day at Googong! Here in the township, we're big on sustainability.

That's why on Sunday 7 September 2014 the homes in Googong's Display Village will play host to experts in architecture, technology, design and gardening who will share the latest thinking on sustainable living and how it can improve the liveability and value of your home.

And don't forget, there's entertainment for the kids, and Yellow Belly Café in Club Googong will be open for great coffee and a bite to eat.

We hope you have a great day at Googong!

SUSTAINABLE HOUSE DAY AT GOOGONG
